

# **Document Management**

## **Securing and protecting our Documents**

**Key to Traceability Solution  
SQRC**

**Presented by  
M & M Technologies P. Ltd.**

- ❖ **Executive summary**
- ❖ **Threat to Civil Society**
- ❖ **Recommended Solution**
- ❖ **Technology overview**
- ❖ **Benefits**
- ❖ **Application process**
- ❖ **Q&A**

# Executive Summary

- **Paper Documents supports Business transactions**
- **Support Government Procedures**
- **Proof of the confidentiality of your record**

## In case of a Fraud....

- The Fraud and Forgery is rampant
- It plagues the Paper Document
- Crippled the Govt. Machinery
- Jeopardize the Civil Society
- Disrupt the Business transaction
- Declining the Ethical growth

# Intention that Damages!

No respect  
for Human  
life

- Opportunists and criminals operating globally
- **Least Regard** for civil Society

Easy  
Money  
Earning

- Easy Money.
- Cheaper Printing,
- Copying technology support.
- Leads to Huge earning !!

# Big Questions ????

- How to Authenticate a Paper document
- Do we provide Security?
- What degree of security can be possible?
- Is it operable?
- How about legal Support?
- Support System?
- Where do we Stand?
- How to implement?
- How about human intervention?

# Big Questions ????

# Legacy System..

- **Fraud prevention makes process complex**
- **Increases transaction cost**
- **Process cumbersome**
- **Time consuming**
- **Tedious task**
- **Involving Multi-level human interventions**
- **Not free from defect**

# Our Proposed Solution

- ❑ We offer leak proof System to protect the Document
- ❑ Provide additional features of security
- ❑ Offers Lock and key System to the document
- ❑ In case of legal support, offers full proof in terms of record keeping,
